RE: Alpha Pagers

Per conversation with John Dinolfi (County Radio)

There is now a Fire Police All Call cap code for you to install to your pager.

This cap code was implemented do to the over whelming use of all calls for Fire Police support around the county. Please have this installed to Fire Police pager to enhance the communications around the county for assistance. The County will not be able to program your pagers. This must be done at your vender.

Code: 15044 Function 1(a)

Please let me know when this has been implemented so we can start using this All Call.

Please call me or E-mail me with your information at:  
[Firepolicecommissioner@verizon.net](mailto:Firepolicecommissioner@verizon.net) or call me at:  
484-576-6934 168\*182485\*1

Thanks for all of your support,
